

Federal Agency; some people cannot. Some people can get licensing; some people cannot. Some people can work through the process with the Corps of Engineers; some people cannot.

And this chaos for the American people and for people who work for the Federal workforce happens all over the country simply because Congress did not get its job done.

Well, the solution is simple. Hold the American people and the Federal workers harmless and push Members of Congress to actually finish the work. This is not a partisan solution. It is just a solution. That is why Republicans and Democrats alike have agreed to the simple solution that MAGGIE HASSAN and I have come to, to be able to end government shutdowns and to say let's continue the conversation that needs to be done, but let's not have yet another shutdown.

This body knows, in the past 40 years, we have had 21 government shutdowns—21. The last one needs to be our last, but I don't know if it will be because 2 weeks from now we are headed to the end of the year, and there is no solution on the table for how to avoid a government shutdown again.

Senator HASSAN and I and multiple others again filed our bill today and said: We know how to stop government shutdowns. Keep us at work. Hold the American people harmless, and let's get the task done.

Honestly, I have had people say: That is such a creative solution, and it is such a simple process to get done. I have smiled at them and said: Actually, it is not all that creative. It is the same thing that my mom did when my brother and I were growing up at the house. When my brother and I were in an argument, she would put the two of us in our room and would say: You guys work it out. When you work it out, then you can come out of the room.

It is really no different than that to say Members of Congress should stay at the task until we solve the budget work and we should not leave with the budget work undone and leave the American people experiencing another government shutdown.

Let's not have shutdown 22. Let's end government shutdowns, and let's get our actual budget work done, on time, as is expected by the American people.

With that, I yield the floor.
